

We will raise 2 million yen (\approx \$14,000) by Dec. 26th (11 pm JST)

\\The hemangiosarcoma research team in Hokkaido University is now crowdfunding!\\

Accelerating basic research to make hemangiosarcoma a treatable tumor

※This project is "All-or-nothing". If we fail to raise 2 million yen by the deadline, you will get reimbursed.

We are studying hemangiosarcoma (HSA), which is a malignant tumor frequently found in dogs.

Many things about this tumor are still unknown, and there are still no effective therapeutics even though a large number of dogs have been suffering from HSA.

Although we are making the best effort to find a novel effective therapeutic for HSA, further funding is necessary to advance HSA research and to make HSA to be a treatable tumor.

We would be happy if you could support us to make our research successful.

Your thank you gifts

- Thank you messages
- Research reports (PDF)
- A donation receipt
- Listing your name in research reports (optional)
- Listing your name in papers (optional)

If you want to know more about the project, come to our project page!

Overview <https://bit.ly/3FOkuaJ>

How to support the project <https://bit.ly/3NxcDjm>

Project members <https://bit.ly/3zLPe8f>

Endorsement messages <https://bit.ly/3DDsJmX>

※220 yen (\approx \$1.5) will be added to the donation amount for the system usage.

How to donate

Search for "hemangiosarcoma readyfor" Or read the QR code on the front

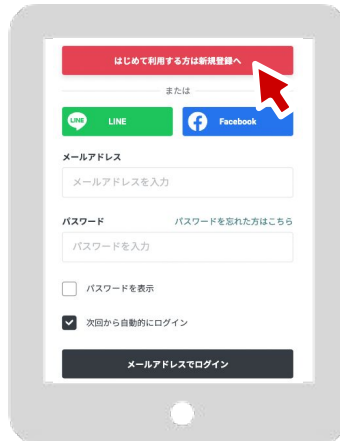

1

Click Continue to donate a project

2

For first-time users, click Register

3

Enter your information and click Sign up with your email address

You will receive an email from READYFOR to the email address you entered. Tap the URL in the body of the email you received.

4

Check the desired course and select the quantity

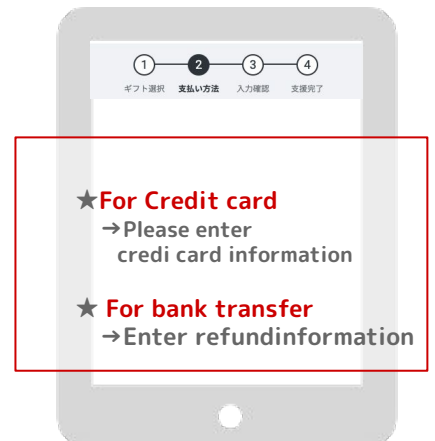

5

Choose your payment method
Click Next

6

Enter your payment method information

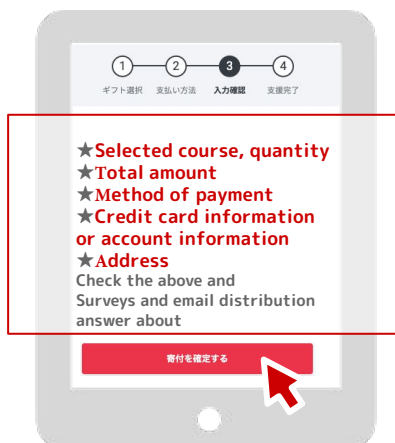

7

Enter the gift delivery address
Click to the confirmation screen of the input contents

8

Final confirmation of input information,
Click Confirm Donation

Procedure completed !
