Sept 11 (Mon)	Today is the first time in Kasesert University.I felt very nervous. I study Epidemiology in class, I learn how to do frame work. To solve problem between prople and monkey ,Our group thought of a plan to make a Monkey Mountain.I learned that it is impossoble to realize because the type of monkey in Japan and the type of monkey in Thailand are different.
Sept 12 (Tue)	Today I learned Statistical analysis in PC room. This room air conditioning was sooo strong and I forgot to bring Outerwear,so it was very cold.Even more unfortunately,Because I did not buy notes,I could not get the black bord.I vowed to buy notes in my heart.By the way, class was so difficult as to die.
Sept 13 (Wed)	Also today I studied Statistical analysis in PC room. I prepared Outerwear and I bought note book last night.Epidemiology is difficult even in Japanese, but it was even more in English.I wanted to do my best to study for the test.In night we go out to take dinner and go night market.
Sept 14 (Thu)	In mornig we studied how to decide Sample Size in PC room. It's very hard to me. In afternoon we make proposal for next week on site. Our theme is "A research of zoonosis detected from monkey feces".I started studying Thai language from today.I want to be able toconduct dairry conversation.
Sept 15 (Fri)	Because we go to Suvarnabhumi Airport,I got up Am6:00 in this morning.We gathered at school at 7:30.It took about 2hours to the airport so I was sleep in side car.I studied structure Suvarnabhumi Airport at first.I learned how to Quarantine and about snipping dog.Today lesson is exciting to me.
Sept 16 (Sat)	Very Happy Holiday

Sept 18 (Mon)	We prepared proposal for tomorrow on site. I thought about how to investigate the number of monkey, calculate prevalence of Salmonella disease and so on. Prof. Suporn told us not to do much preliminary investigation. But we don't even know the place where we stay.
Sept 19 (Tue)	I got up AM5:00 because we gathered at school at AM6:00. It took about 2hour to Lobpri. To avoid traffic jam we gather soooooo early morning. When we arrived Erawan mountain in Lobpri, we listened the head of area's story. After that we collect sample of monkey's feces. It's too tired. We stayed nearby lake. We too tired so we slept early.
Sept 20 (Wed)	We explain our proposal to expert. We were called out many things by expert. We reconsider proposal in all morning. We took lunch and moved to the city center of Lopbri. We did a light tourism. We were going to go to Ayutthaya. Because some students have to go hospital, we went back school straight.
Sept 21 (Thu)	We prepared presentation for tomorrow class all day long. I was doing research and making Power Point for a long time. Epidemiology is very hard to me. We will go Huahin to do clinical rotation next week. There is no time to study English Veterinary technical term. I will do my best...
Sept 22 (Fri)	We did oral presentation at AM10:00. We prepared presentation until AM3:00 but we were not able to finish it perfectly. So we were given a lot of homework. I'm tired out by professor's question. The oral presentation was 30 minutes , the question time was 1 hour. I have to do my best as the deadline of homework is up to 10/6.
Sept 23 (Sat)	Very very happy holiday

Sept 25 (Mon)	I was anxious about surgery class, because I belong to veterinary hygiene in Japan. We have 5 cases. 1 st case is Castration & Cryptorchid. 2 nd case is remove mammary mass. 3 rd case is Laparoscope for removing ovarient remnant. 4 th case is leg amputation of Squirrel. 5 th case is remove pleural effusion. Thre are difficult for me but Dr. Pon teach me kindness.
Sept 26 (Tue)	We have 4 cases today. 1 st case is Femoral head excision for hip luxation. 2 nd case is patellar luxation. 3 rd case is remove mammary mass. 4 th case is distral femur. Today Dr. Pon and Dr. Off teach us kindness. After take dinner our group were taught how to suture. It will benefit us. In surgery class We gained experience not able to do in Japan.
Sept 27 (Wed)	Today we have class of OPD(Out Patient Department). I follow Dr Ham. I have 8 case only in morning. Internal medicine require a lot of Technical term so I felt very tired. We have various case , for example skin disease , mass , infection and so on. In evening I have only 2 case , so I review morning cases and study technical term.
Sept 28 (Thu)	No training
Sept 29 (Fri)	We have class of OPD in only morning. I followed Dr. Vesu instead of Dr. Ham. Dr. Vesu explained slowly and clearly. So I can understood a lot of case despite not knowing technical term a lot. I have 8 case in morning so I felt so busy.

Oct 2 (Mon)	Today we study laboratory interpretation learning by cases. I heard that it is a class of microbiology, so I was puzzled. We made a judgment on symptoms from blood diagnostic evaluation. It's late, I started to make a note which I write veterinary technical term I don't know.
Oct 3 (Tue)	We do necropsy today. We dissected the carcass of the dog and examined the cause of death. We can found pneumonia, cardiomegaly, cardiomyopathy, splenomegaly, renal disease and hepatic tumor. Incidentally, I am not good at blood, so I was watching from afar.
Oct 4 (Wed)	Today's class is Neurology. First of all, we studied about POA(Problem Oriented Approach). We learned by using the dementia case. After the class I went to central library. I compiled the notes that I didn't understand.
Oct 5 (Thu)	We learned Exotic animals and Wild animals. In the morning we studied about swine. We learned POMR and DAMNIT-VP. We were given homework. After lunch time we learned about swine. Professor taught us using table of swine disease.
Oct 6 (Fri)	We have class only in the morning. Today class is Equine's disease. Professor's explanation was easy to understand. We learned about disease of Pythiosis. In Japan there is no Pathiosis so I felt fresh. After the class we do our homework of epidemiology because it's deadline is today.
Oct 7 (Sat)	Holiday
Oct 8 (Sun)	Holiday

Oct 9 (Mon)	Today we have microbiology class. We are divided 2 groups and do case study. The case is swine farm which occur pandemic infection. We investigate what pathogen occur this pandemic. I given homework about ELISA.
Oct 10 (Tue)	We continued yesterday's continuation and learn how to do PCR. Our group only do presentation about each homework in morning. We take lunch, after we learned how to do PCR. I usually use PCR in my laboratory so it is easy to me.
Oct 11 (Wed)	We have new case in class. We discus about the case of disease all day long. Discussion from 9:00 o'clock to 17:00 o'clock tired to me. I given homework about conclusion of this case , so I have to summarize all information of today case.
Oct 12 (Thu)	Today I do presentation about conclusion of this case. It is too nervous for me to presentation front of students. This case was finished in morning. We learn how to do RT-PCR in evening, but I usually doing that. So it is easy to me.
Oct 13 (Fri)	No training

Oct 16 (Mon)	Today we have surgery class in huahin. We have 4 cases today. 1st case is removing mass. 2 nd case is removing mass too. After lunch, we treat pyometra as 3 rd case. 4 th case is bone fracture. After dinner we have neurosurgery. We attend to this case but it was likely to take long time. So we went back to dorm in the middle of surgery.
Oct 17 (Tue)	We have neurosurgery in the morning. This case's dog have brain tumor. It took 4 hour to remove mass , so we felt so tired. After this surgery, we take lunch. We have only 1 case in evening. This case is wound repair. All of today's case have hardly ever seen.
Oct 18 (Wed)	Today we have 3 cases in this morning. There are castration and bone fracture. After lunch, we will to do all auditory canal resection because of mass. However Dr.pom had finished surgery when we went back. Today is the last day for Rubini and Qistina who are internship student. We listened their presentation.
Oct 19 (Thu)	Today we have OPD class. I followed Dr.Cham who is specialist of Cardiology. I have only 3 cases in this morning. Dr.Cham explanation is very thorough so I can understand very well about ultrasonography. After lunch I have only 1 case.
Oct 20 (Fri)	Today we have OPD class. I followed Dr.Kate. Today class is only morning but we have a lot of cases. Dr.Kate is so kind, so I can understand a lot. After class Dr.Vesu and Dr.Pon take us dinner near by beach. There are many delicious food.
