

## Leukocyte immunoglobulin-like receptor B1 is a co-receptor for antibody-dependent dengue infection

Key-words:

**Dengue, ADE, Innate immunity, Emerging infectious disease**

Date: **22<sup>nd</sup> October (Thu)**, 2015

Venue: Lecture Hall

Time: **16:00~** 18:00

Lecturer: **Dr. Eng Eong Ooi**

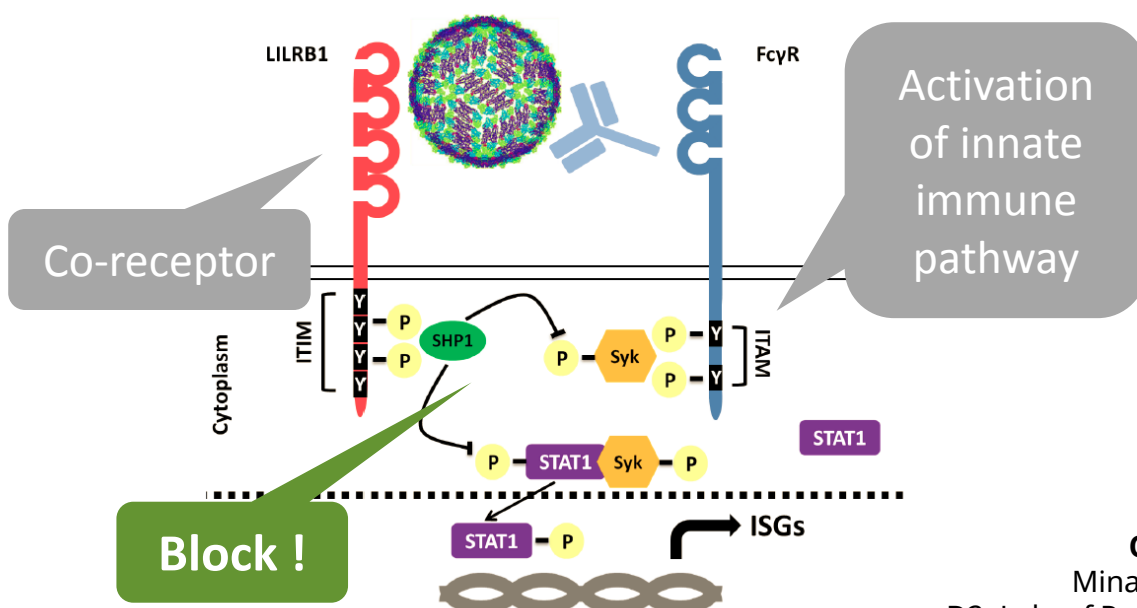

**Associate Professor & Deputy Director**

Program in Emerging Infectious Diseases,  
Duke-NUS Graduate Medical School,  
Singapore

### Summary

Dr. Ooi showed that DENV have a mechanism to block the activation of innate immune pathway during Fc- $\gamma$  receptor dependent infection.
